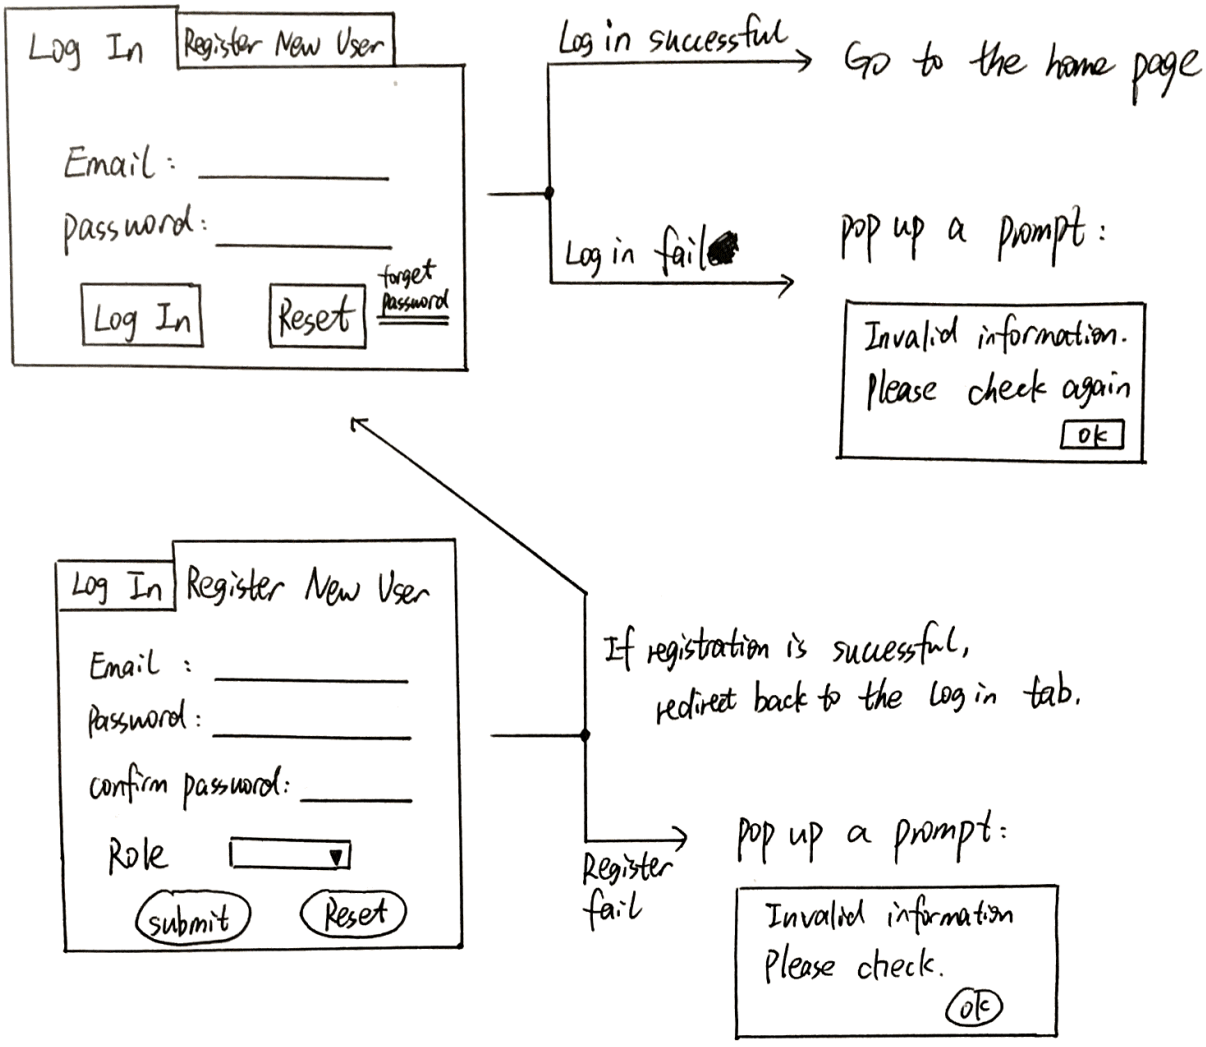
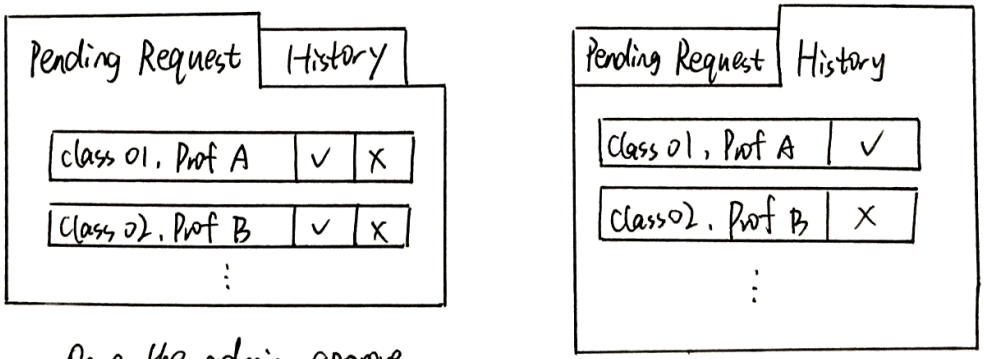
The index page:

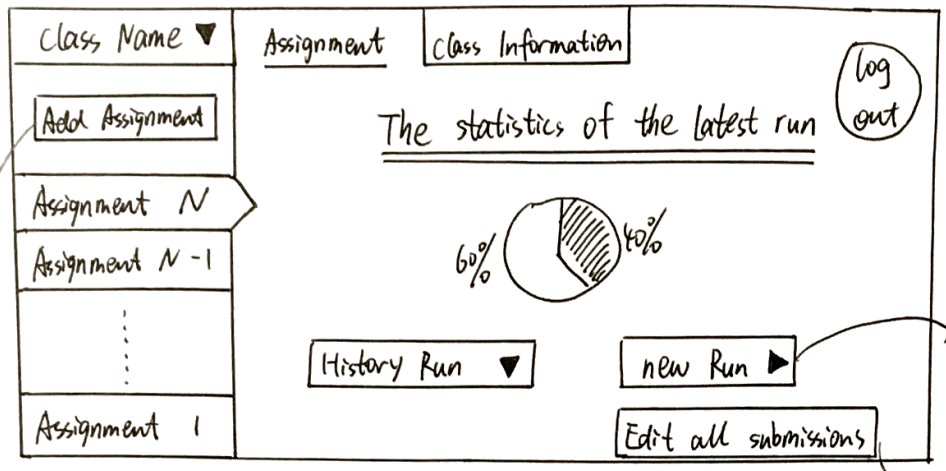


The admin page:

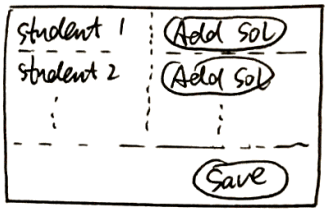


Once the admin approve or reject the request. it will appear in the "History" tab.

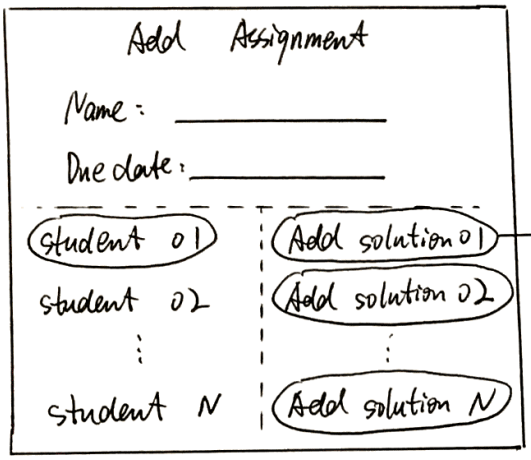
The home page:



1. On the upper left corner, there is a drop-down menu, showing all classes of the professor. (Class Name ▼)

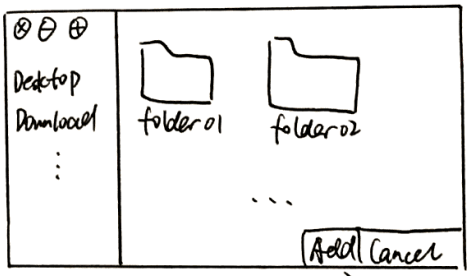


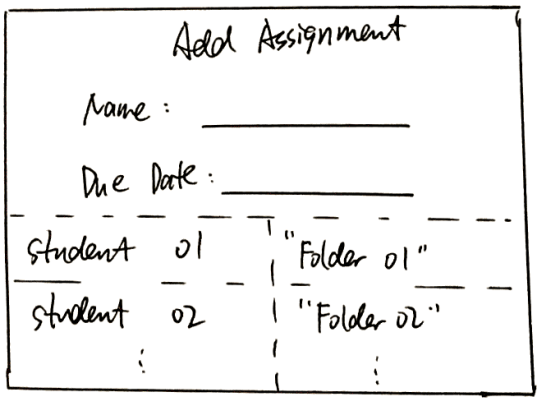
2. The left column shows all the assignments of the course. And the ~~assi~~ new assignment can be added by clicking "Add Assignment" button.



※ Only professor can trigger this page.

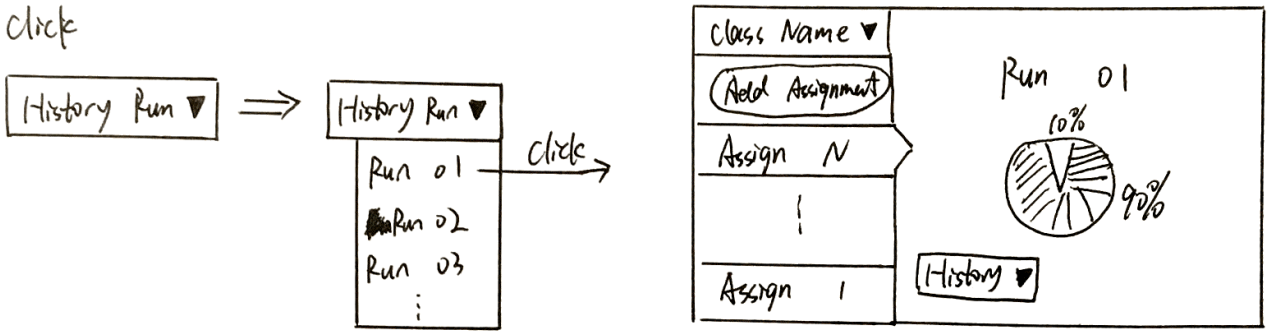
After clicking "add solution", a finder dialog will come up

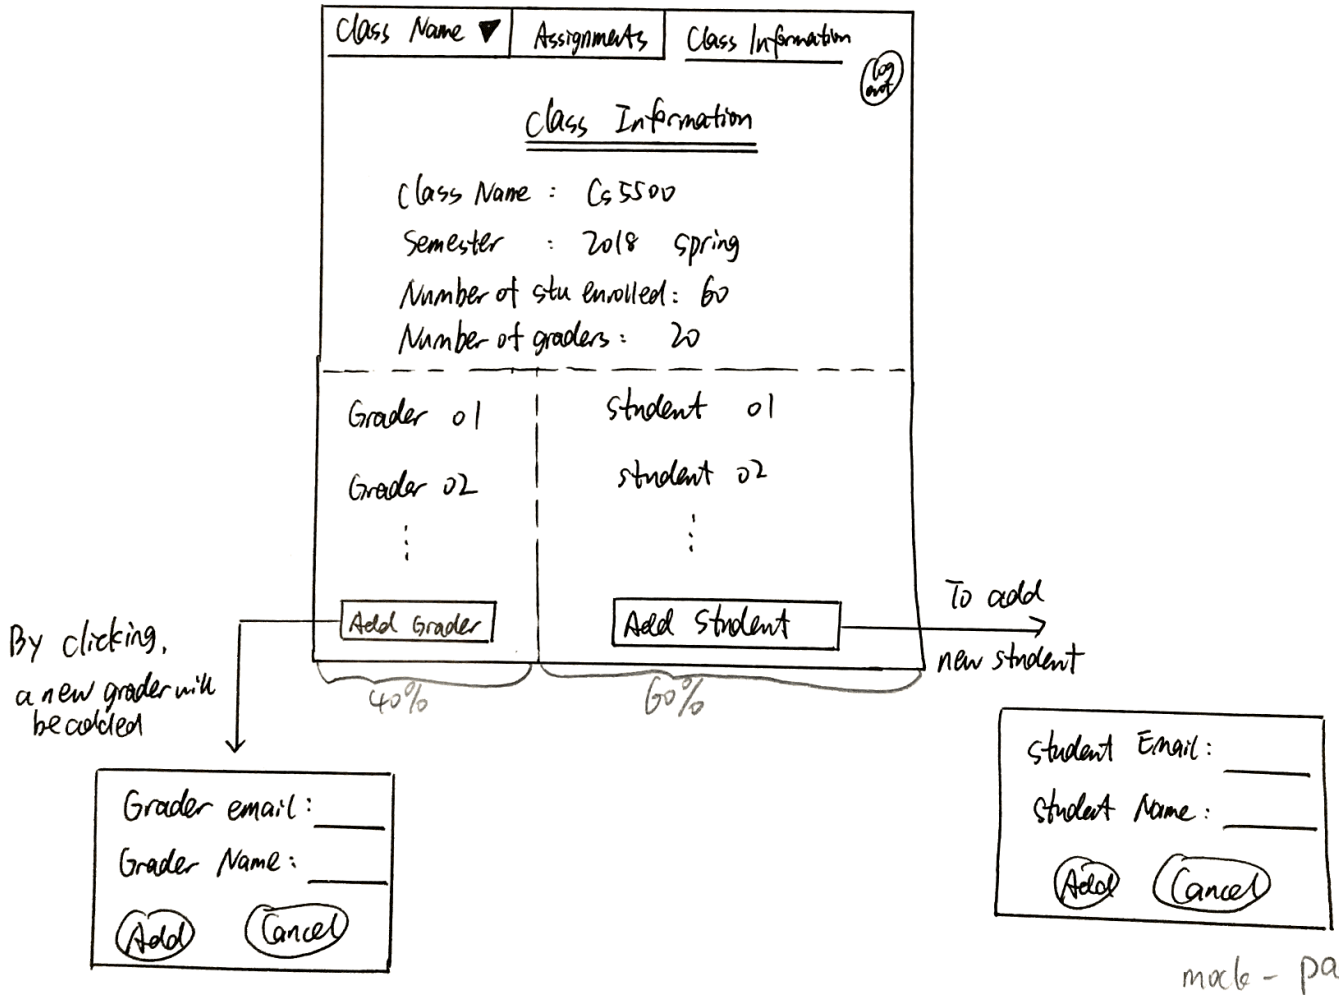




After clicking "add" button, the "add solution" will disappear, and the folder name of the solution will be shown.

3. Each assignment is clickable, once click the assignment, on the right column will show the statistics of detect. User can also choose to show the data of previous checks, by selecting [History Run ▼], and the statistics will be updated.





4. There are two tabs ~~on~~ in the banner of the page, by defaut shows the "Assignment" tab. Click "Class Information" to switch to the class info tab.
